

BRAS D'OR 11

If you are in the market for a new dinghy or a day-sailor, you should consider the following offer:

What about a hard bottom dinghy that you can row or sail?

This dinghy is easily pushed by a small outboard. It can be towed or hung in davits as required.

This elegant classic sailing dinghy is offered at a very competitive price.

This 11 foot catboat dinghy, from the pen of the famous American naval architect Charles Wittholz, carries 80 square feet of sail.

With its 5 foot beam, the boat is very stable and much more spacious than a similar size inflatable, and has excellent rowing and sailing characteristics.

Length Overall: 11' Beam: 5'
Draft: 8" / 2'11"

Construction : Standard Hull is fibreglass
Wooden spars
